

# DJI DOCK V2 SPEC SHEET

## Overview

The Good Drone Co is proud to present the latest innovation from DJI, the global leader in civil drones and creative camera technology - the DJI Dock V2. This cutting-edge product is an autonomous drone docking station designed to revolutionize various industries by streamlining aerial operations. With the DJI Dock V2, businesses can enhance efficiency, safety, and precision in tasks such as surveying, inspections, asset management, and security.

### Key Features

<b>Exclusive Design with DJI Matrice 3D/3TD Drone:</b>	<ul style="list-style-type: none"><li>· The DJI Dock V2 features the exclusively designed DJI Matrice 3D/3TD drone, offering unparalleled performance and reliability.</li><li>· This lightweight "drone in a box" solution is cost-effective and simple to install and deploy, catering to enterprise needs efficiently.</li></ul>
<b>Seamless Integration with DJI FlightHub 2:</b>	<ul style="list-style-type: none"><li>· DJI Dock V2 is compatible with DJI FlightHub 2, enabling seamless management and monitoring of automated aerial missions through cloud-based operations.</li><li>· Businesses can optimize workflows and achieve operational excellence with this powerful end-to-end enterprise solution.</li></ul>
<b>Automated Aerial Missions:</b>	<ul style="list-style-type: none"><li>· DJI Dock V2 facilitates easy deployment of automatic missions, significantly improving operational efficiency.</li><li>· With advanced features like high-precision 3D models creation and automatic camera angle adjustment, routine surveying tasks can be automated, enhancing worker safety and productivity.</li></ul>
<b>Compact and Lightweight Design:</b>	<ul style="list-style-type: none"><li>· Weighing only 75 pounds (34kg) and measuring 22.4 x 22.9 x 18.3 inches (570mm x 583mm x 465mm), DJI Dock V2 is 75% smaller and 68% lighter than its predecessor.</li><li>· Its easy-to-carry design allows for hassle-free installation by two adults, making it a cost-effective solution for businesses.</li></ul>
<b>Efficient Site Evaluation and Swift Deployment:</b>	<ul style="list-style-type: none"><li>· Utilizing vision sensors, DJI Dock V2 evaluates sites before deploying drones, ensuring optimal flight paths and GNSS signal reception.</li><li>· Site evaluation time is reduced to 12 minutes or less, expediting deployment processes and increasing operational agility.</li></ul>

## Key Features

<p><b>Reliable Performance in Extreme Conditions:</b></p>	<ul style="list-style-type: none"> <li>· DJI Dock V2 is IP55-rated for dust and water resistance, ensuring reliable performance in harsh climates and environments.</li> <li>· Real-time weather monitoring and online forecasting capabilities via DJI FlightHub 2 enable timely warnings and adaptive flight task management.</li> </ul>
<p><b>Steady and Cost-Effective Remote Operations:</b></p>	<ul style="list-style-type: none"> <li>· DJI Dock V2 is compatible with DJI FlightHub 2, enabling seamless management and monitoring of automated aerial missions through cloud-based operations.</li> <li>· Businesses can optimize workflows and achieve operational excellence with this powerful end-to-end enterprise solution.</li> </ul>
<p><b>Minimum Maintenance and Emergency Support:</b></p>	<ul style="list-style-type: none"> <li>· DJI Dock V2 requires maintenance only every six months, ensuring minimal downtime and operational disruptions.</li> <li>· In the event of a power outage, the built-in battery provides up to 5 hours of independent operation, ensuring safe returns and landings for drones.</li> </ul>
<p><b>High-Precision Aerial Missions with DJI Matrice 3D/3TD:</b></p>	<ul style="list-style-type: none"> <li>· The DJI Matrice 3D/3TD drones, integrated with DJI Dock V2, offer high-standard operational capabilities for various missions.</li> <li>· With features such as integrated RTK antennas and omnidirectional obstacle sensing, these drones deliver exceptional performance and reliability.</li> </ul>
<p><b>Integrated Open Ecosystem for Enhanced Capabilities:</b></p>	<ul style="list-style-type: none"> <li>· DJI supports an open ecosystem, allowing operators to leverage both DJI and third-party software and payloads.</li> <li>· Compatibility with DJI TerraAPI and third-party payloads enables extensive capabilities for 2D/3D model reconstruction, cloud-based operations, and specialized mission requirements.</li> </ul>

The DJI Dock V2, coupled with the DJI Matrice 3D/3TD drones, represents a significant advancement in autonomous aerial solutions. By offering unmatched performance, reliability, and versatility, it empowers businesses to redefine their operations and achieve new levels of efficiency and productivity.

**Experience the future of aerial technology with DJI Dock V2 -  
your gateway to seamless, automated aerial missions.**
